

## EYE CHART

- 1) You cannot use this chart by looking at it on your computer monitor due to the size and resolution differences among computers.
- 2) The chart below is exactly 12.7cm (5 inches) wide. Please make sure it is 12.7cm (5 inches) wide on your printed copy.
- 3) To find the reading strength you need, hold this printed eyechart at approx. 36cms from the bridge of your nose. The first line you have difficulty reading has a lens strength to the right of it, this is the strength you need.

PLEASE NOTE. If you require the glasses for working closer or further than the 36cms, then hold the chart at the distance from your nose, that you intend working from to determine the strength you require.

### Determine the reading power you need!

	Power needed
If you have difficulty reading this line, you need...	4.0
If you have difficulty reading this line, you need...	3.5
If you have difficulty reading this line, you need...	3.0
If you have difficulty reading this line, you need...	2.5
If you have difficulty reading this line, you need...	2.0
If you have difficulty reading this line, you need...	1.5
