

Hotel Evacuation Station

For mounting by exit doors

EvacLight™
Hotel Evacuation Light Station

Three measures of risk reduction in a single product

1. Provides automatic illumination of evac exit lights
2. Provides each guest with a personal evacuation light
3. Makes each evacuee highly visible to arriving rescue teams

Features of EvacLights™

- Evac Station light activates automatically by pulling down the box cover
- Each guest takes an EvacLight upon exit
- EvacLights are drop proof and weather proof
- EvacLights provide 360 degrees of light
- EvacLights provide high output light for four hours
- EvacLight Station keeps light batons secure until use
- EvacLight Station provides visual alert of tampering
- *Maintenance free: light batons stay ready for years
...then work every time*
