Maintenance work lighting

"Working with Cyalume has been a great investment for us. We recently had a complete power failure and the cyalume sticks were invaluable in showing our guests the way to their rooms. In addition, the fact that you do not need to check any batteries is a great advantage, knowing that you can snap a stick open and it will be 100% reliable in illuminating any area".

Karl Spiers, Security Manager, Hyatt Regency London - The Churchill.

- Easy to use
- 360° of illumination
- No batteries needed
- Up to 12 hours of light
- 100% maintenance free
- Non-toxic, non flammable
- No heat, no sparks, no flames
